

### Mission Target

Help Thymio get from the start to the finish in the maze!

### ✓ You need these

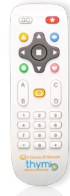

Thymio

Amazing Thymio laminated maze

### 😊 Optional

remote control

obstacles

### ✗ Don't use!

purple mode (remote control)

hands

### Mission (Easy)

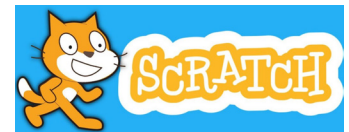

Put Thymio on the Start (S) and use the light blue mode to get to the Goal (G) following the black path. You can use white or black paper strips to help Thymio turn and move.

### Mission (Expert)

or

Put obstacles on the course and make a program with VPL or Scratch to make Thymio go around the obstacles.

Don't forget to take pictures and videos to share!

Help Thymio get from the start to the finish in the maze!

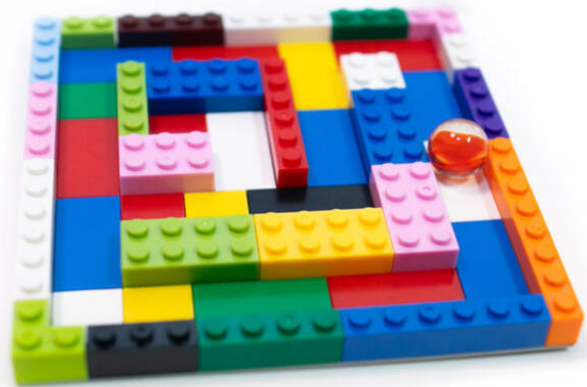

Step 1: Watch the video below and compare your solution to it.

Step 2: After watching the video, try making a custom program using the remote control while following the black line. (The program for VPL3 is below.)

Step 3. (Optional) Let's make a brick maze for a marble, toy dinosaur, or other character.

Step 4. Take videos of your solutions and upload them using the QR code below.
