

# Happy Every Day

(Music/Lyrics: Jeremy, Vocals: Jeremy/Mihiro)

Have I told you that I love your style  
And the way you always make me smile  
I love the way you always make  
Every day that I'm awake  
Another day to look forward to

Have I told you that I need your touch  
It's a feeling that want I so much  
Just the smallest little things  
All the happiness you bring  
It drives me crazy when you act that way

Hey baby, baby you're so sweet  
I love the times that you're with me

Hey baby, baby you're so sweet  
Why don't you spend another day with me

\* Cuz I'm just so happy, happy, happy  
Every time I see you smile  
Every time you're standing by my side  
And every time I hold you for a while

I'm just so happy, happy, happy  
Every day you're on my mind  
Every day you make me wanna try  
And make you happy 'til the end of time

Have I told you I won't change my mind  
Even if you're with me all the time  
You're the only one I need  
The only one I wanna see  
You'll make me happy for eternity

Hey baby, baby you're so sweet  
Why don't you spend another day with me
